9 Spokes to explore a global collaboration opportunity with Visa

Highlights

- 9 Spokes and Visa have signed an addendum to the Collaboration Framework Agreement announced earlier this year to explore a potential collaboration to bring the 9 Spokes platform to Visa issuers and their SMBs worldwide
- 9 Spokes' capabilities feature on the Visa conference exhibition stand at a leading tech conference in Singapore and during Visa presentations at the Small Business Banker conference in LA next week.

Auckland, NZ | 12 November, 9 Spokes (ASX: 9SP or "the Company"), a leading marketplace and insights company to small businesses, advises that it has signed an addendum to its Collaboration Framework Agreement with Visa USA. Inc. ("Visa"), enabling the parties to explore a potential opportunity to make the 9 Spokes platform and business app Marketplace available to Visa's small business issuing clients and their SMBs worldwide. 9 Spokes and Visa and its bank clients have a shared interest in providing leading-edge technology to SMBs.

The 9 Spokes capabilities feature on the Visa conference exhibition stand at the Singapore FinTech Festival 2019 (11 to 15 November).

Adrian Grant, Co-Founder and CEO of 9 Spokes, said:

"The opportunity to explore this potential collaboration with Visa and feature the 9 Spokes platform at the upcoming Singapore FinTech Festival and the American Banker Small Biz: Banking Conference is an exciting prospect for 9 Spokes."

About 9 Spokes

9 Spokes is a business tracking and insights tool that enables SMBs to harness the power of their data to improve performance. SMBs can connect their cloud software to the 9 Spokes platform and use the Tracker tool to get a comprehensive, near real-time picture of how they're performing across the metrics that matter most – so they can make quick, sharp decisions that impact growth.

9 Spokes is available to SMBs directly through 9spokes.com and as a white-labelled platform for enterprise customers, including banks and other financial services

providers. The Enterprise Edition allows banks, under their own brand, to deliver richer, more engaging experiences to their **SMB** customers. Through permissioned access to their **SMB** clients' data, banks get the insights they need to offer products and services that are better tailored to their small business customers' needs.
